

Community Connect

Amp up care quality and community engagement with integrated technology

As technology use among seniors continues to grow, tech-savvy solutions that connect your entire community are changing from added amenities to expected amenities. Through intuitive TV, tablet and smart phone interfaces, Community Connect platforms help foster resident independence, quality of life and social engagement by connecting residents to community events, loved ones and staff more easily than ever.

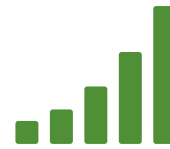

Creating the right solution depends on your community's unique needs. That's why Direct Supply's technology experts are here to help. We'll create a comprehensive solution catered specifically to your community.

Reap the benefits of an **innovative, fully connected solution**

Minimize isolationism by keeping residents engaged with staff members, loved ones and fellow residents.

Boost marketability with innovative and accessible technology that meets and exceeds the demands of incoming residents and their families.

Enhance resident independence with the most up-to-date technology that connects residents to community events and important family interactions.

Cut costs through reduced paper waste, streamlined workflows, operational efficiencies, staff time savings and bundled IT services – all to help your bottom line.

Discover the ideal Community Connect solution for your unique building and culture. Direct Supply's experts are here to help.
